The Beginning of the new school year.

"Summer vocation is over. I'm at school again. I'm happy to go back to school because I see my friends and teachers. I am

sure that I have to work hard in the classroom and get good knowledge at school. My school is famous for its high quality of education."

Nastya Lzhova.

"Today is the first of September. It is a holiday for us. Everyone is happy to meet each other. I am looking forward to school, because knowledge will help me to become a good specialist in my future."

Egor Pavlov.

"I'm happy to be at school again I like my favorite subject English. I like to discuss something interesting, to debate, to have discussions in small groups and to create role-playing games."

Frol Kartashov.

The leader of the form.

Katya Spirkina is the leader of our form. Katya is very sociable. She is a good friend, she always helps in difficult situations. More than that, Katya is generous and keeps her promises. Besides she is a good student. She always gets good marks and is helpful to others. She is fond of reading books, dancing. It's very interesting to talk with her about latest events in the world of art. Katya is a good-looking girl and she wears nice clothes.

"I am fond of aerobics. I really like going to the gym and doing aerobics. A healthy lifestyle is an absolute trend of our days. My coach is a very important person for me. She gives advice on exercises, makes a plan of training and helps me."

Katya Spirkina.

Reading is an important leisure activity.

Dasha is keen on reading. She thinks it is useful and necessary to know a lot. There are many ways of getting knowledge. She is sure that we can't live without books.

Dasha thinks reading is important because it expands outlook. Serious literature could help to solve some life problems, learn more about countries and people, about our world. She says that we can learn many interesting things from different fields of life by reading. Sometimes reading books is the perfect way to relax and to spend free time. She prefers to read books about the history of our country. Dasha thinks that the past helps us to understand the present.

The excursion to Tarchany

At the English lesson our teacher advised us to go Tarchany to learn more about our native poet Mikhail Yuryevich Lermontov. We went there by bus. It took 4 hours to get there. The weather was very nice. We could watch the passing scenery through the window. The view of the estate impressed us greatly. There were so many beautiful roses and other amazing flowers in the gardens. Everything was very interesting. The excursion was very useful. We learned new facts from the private life of our native poet. We visited his private chapel, his home and beautifully manicured garden. That was definitely worth a day trip.

In the world of Music and Art.

Music can cause strong and complex feelings. Anya likes music. She has been studying at the music school for five years. She plays the domra. She likes folk music. Her favorite singer is Pelageya.

When she is free, she likes to listen to Oleg Pogudin and Marina Devyatova

Christina is keen on music too. She has been visiting the music school since the second form.

She plays the piano.

Christina says that music plays a very important role in her life and reflects mood and emotions. Paying attention to classic music she takes part in the concerts of such music. These concerts make a great impression on us.

Alyona and Nastya are interested in painting. They graduated from art school. They love the landscapes. They

are very talented. There is something in their landscapes that reflects their own moods. Summer is their favorite season. Their paintings: Trees, Nature after Rain reflect their love for nature.

The excursion to the Museum

Last week we visited the Museum of Glass in our town. Our Museum was established in the oldest Russian Glass factory. The museum contains unique works of old glass masters as well as the work of present-day craftsmen. During its function as a Crystal factory, it produced specially made pieces for the Czars family. The exhibitions of this rare kind of applied art attract many visitors from all over the world.

Where do we get the information?

Lera gets a lot of information through the media, especially on television. She watches TV to keep up to date. She likes to listen to the latest news, especially about politics, as she finds it interesting.

Dasha loves reading magazines. They come in different types. These are new magazines for teenagers, especially for young girls. They contain

sensational stories about famous people. Since she is interested in fashion, she always finds articles about brilliant fashion and beauty.

Health is Better than wealth

Our health depends on many things. One of them is physical activity. That's why many students of our form go in for sport. Danil Hramtsov is the best tennis player not only in our form but also in school. He has been playing for tennis since the 5th form and won prizes for several times. He likes to take part in sports competitions. Danil says that sport helps him in different ways. First of all, sport builds character. Besides, it teaches him to win and to lose. It makes him strong, fast and patient. What is more, it teaches him about life.

Frol's hobby is playing chess. His grandfather taught him how to play chess. To be honest, learning to play chess was not easy. But when he had learned to play, chess opened up a whole new side for him. Now he is the best chess player in our class and in our town. He takes part in various competitions and gets a lot of prizes.

Daniel and Egor go for skiing because it helps them to keep fit. More than that, they would like to become skillful sportsmen. A lot of different competitions are held at school, in the town, and in our region. They take part in them, they try to get good results and become winners. We are proud of our friends.

«Nowdays it's very popular to keep a healthy life style. I think it's a quite good tendency. I have been skiing since childhood. A lot of people influenced my skills and taught me new ones. My first teacher was my father. After him I had a qualified coach. Actually, I like many winter activities but skiing is the most favorite one. I never miss the competitions that take place in our region and I certainly watch the various winter sports on TV».

From Daniel's composition

Conclusion

In the conclusion we'd like to mention that it was very interesting and useful to make our school Year book. Each of us took part in the discussions. We spoke much about our attitude to Literature, Music, Art. We wrote compositions about places we had visited. We learned so much during our excursions. The most important thing is that we had useful practice in writing and speaking English.
